

ACBA DIGITAL

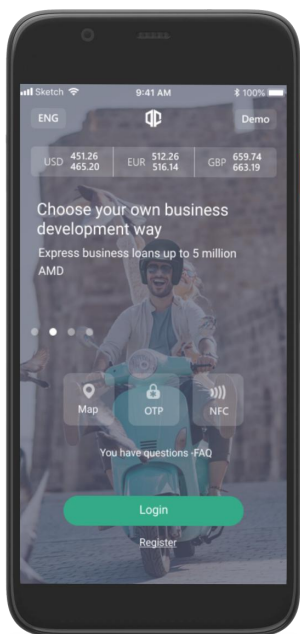

Guidelines

From Old Application to New Application

If you have previously used the ACBA Mobile application or have a physical token that you want to replace with the application, you will need to make a replacement from the ACBA Digital application.

Replacement

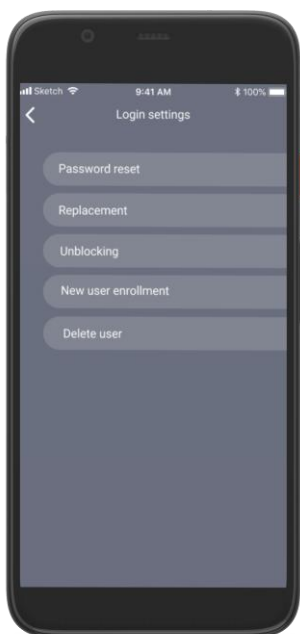

1

After updating or downloading the application, you need to click the "Login" button

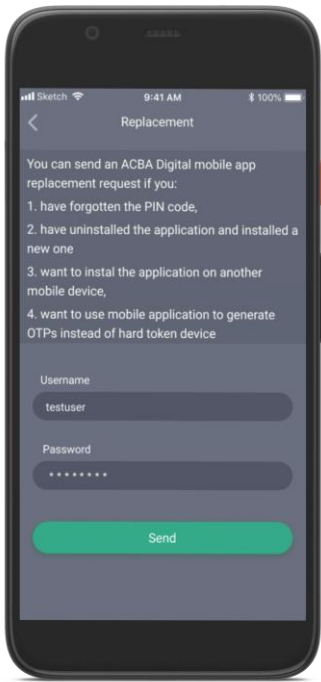

2

In the window that opens, select "Access Management"

3

In the window that opens, select the "Replace"

Fill in username and password

4

ACBA Digital will send a verification code to your mobile number registered in the Bank, which must be entered in the opened window

5

After code verification, a registration code will be sent to your e-mail address registered in the Bank, which must be entered in the last stage of the replacement

6

After successful registration, a PIN code will be sent to your mobile number. The password remains unchanged. You will need to enter the old password when logging in

7
